ISSUED PURSUANT TO

**43964**

DATE: **JUNE 3, 2011**

Indiana Utility Regulatory Commission

## **SCHEDULE A-8**

### **RESIDENTIAL AND FARM SERVICE**

#### AVAILABILITY

Available to any member of the REMC located on its lines for general residential and farm use for a single-phase service with fifty (50) kW or less metered demand.

#### CHARACTER OF SERVICE

The type of service rendered under this schedule shall be alternating current, sixty (60) Hertz, single-phase at a voltage of approximately 120/240 volts three wire, or other voltage as might be mutually agreed upon.

#### MONTHLY RATE

Consumer Charge	\$19.50 per month
Energy Charge	
First 1,000 kWh	0.128 per kWh
Over 1,000 kWh	0.105 per kWh

#### MINIMUM MONTHLY CHARGE

The minimum monthly charge under the above rate shall be the consumer charge.

#### ALTERNATIVE BUDGET BILLING PLAN

Upon request of the member, and upon approval of the REMC, a budget plan for payment of electric service bills may be used. On the basis of actual experience, or estimated consumption where there is no actual experience, the REMC will compute the annual energy charge for all purposes and divide the same by eleven (11). The result shall be the amount to be paid by the member as his "monthly net bill". At the end of the eleventh (11th) month, the difference between the actual charge and the budget plan shall be payable with the bill for the twelfth (12) month of the billing period. All monthly net bills and any additional payment due shall be subject to any collection charges and terms of payment as specified in this schedule.

Indiana Utility Regulatory Commission

Any overpayment shall be refunded in cash or credited to the member's account, at the option of the member. Budget plans will be set up between May 1 and June 15 for winter-peaking accounts, and between January 1 and January 15 for summer-peaking accounts. A consumer may begin this plan only at these times.

### CONDITIONS OF SERVICE

1. Service shall be provided based upon the REMC's rules and regulations as on file with the Indiana Utility Regulatory Commission (IURC).
2. All single-phase motors or apparatuses with an inrush current in excess of 250 amps at 240 volts shall require REMC approval.
3. Service under this schedule shall be limited to one meter for the same member at the same location where the service can be adequately supplied from a single service.
4. Single-phase service to phase converters will be by REMC approval only. The single largest motor shall not exceed 30 horsepower and total connected motors shall not exceed 60 horsepower.

### RATE ADJUSTMENT

The above rates are subject to a Total Power Cost Tracking Factor, in accordance with the order of the IURC, approved in Cause No. 43964. The Total Power Cost Tracking Factor stated in Appendix A is applicable hereto and is issued and effective at the dates shown on Appendix A.

TOTAL POWER COST TRACKER (Refer to Appendix A)

TERMS OF PAYMENT (Refer to Appendix B)

METER TEST AT REQUEST OF MEMBER (Refer to Appendix B)

INTERPRETATION (Refer to Appendix B)

ALL OTHER NON-RECURRING CHARGES (Refer to Appendix B)
